OUR SCHOOL

FOREWORD

The purpose of this work is to serve as a memorial for the Seniors of 1947, a book they may keep with affection and glance through in later years to re-live moments of school boy life, to renew acquaintance with classmates who have gone a different direction on life's highways, to recall masters and friends whose once well-known features have dimmed with the passing of years.

In thus preserving for ourselves the memories of the school year, we hope to introduce others to St. Joseph's Academy, to show them by word and picture what the school is doing for the boys under its care.

The school is known for its high scholastic standards. It is taught by the Marist Brothers who give the student interest that unselfishly touches his very heart and helps "find himself."

The Academy offers every modern convenience in buildings and equipment, and its record in scholarship, health and deportment has been remarkable.

St. Joseph's Academy stands for making the four point man, by developing his physique, expanding his mind, promoting a high standard of morals, and cultivating his soul. Its students are trained to become worth while citizens and to engross themselves in all things pertaining to their community needs. Thus with the development of characteristics of Catholic leadership each is inspired to bring honor on himself, his parents and his community.

DEDICATION

To His Excellency, Bishop Emmanuel B. Ledvina, with the confidence of children, the gratitude of much favored friends, and the love of spiritual sons, we, the Seniors of St. Joseph's Academy, dedicate this 1947 Maroon and White as a token of the sentiments that fill our hearts on this memorable year of his silver jubilee.

MOST REVEREND E. B. LEDVINA, D.D., LL.D.,

Bishop of Corpus Christi,

Assistant to the Pontifical Throne

SUPERIOR GENERAL

September 24, 1946 brought great joy to the hearts of all the Marist Brothers throughout the world. The Fourteenth General Chapter of one-hundred-and-one members had convened and it had chosen Reverend Brother Leonidas the Seventh Superior General of the Marist Brothers and successor of the Very Reverend Brother Diogenes who a few years previously had left this valley of tears for a better land.

Reverend Bro. Leonidas was born in Roussillon, southern France, on February 24, 1886. Feeling a sincere and profound vocation for the religious life, he joined the Marist Brothers. He came to America in 1902 and made his perpetual vows on the feast of the Immaculate Conception in 1907. He then went to teach at Guadalajara and later at Mexico City. During these years of teaching he displayed an ardent zeal for the religious life and seeing in him a tireless worker, his superiors appointed him director of the Scholasticate in San Antonio, Texas, in the year 1918. He executed his new duties in an excellent manner and in 1924 he was chosen director of the Junior College in Mexico City.

Four years later Reverend Bro. Leonidas was appointed Provincial of all the Marist schools in Texas, Mexico and Cuba. It was during his administration that Bro. John S. Herd was sent to Laredo in 1936 to found St. Joseph's Academy. In 1939, Bro. Leonidas was appointed Provincial of Colombia and Central America. Then, in 1941, he was elected Assistant Superior-General and in that capacity he visited all the schools in Peru, Chile, Argentina, and also some in Spain and France. Death struck Rev. Bro. Diogenes and Rev. Bro. Leonidas was chosen to succeed him.

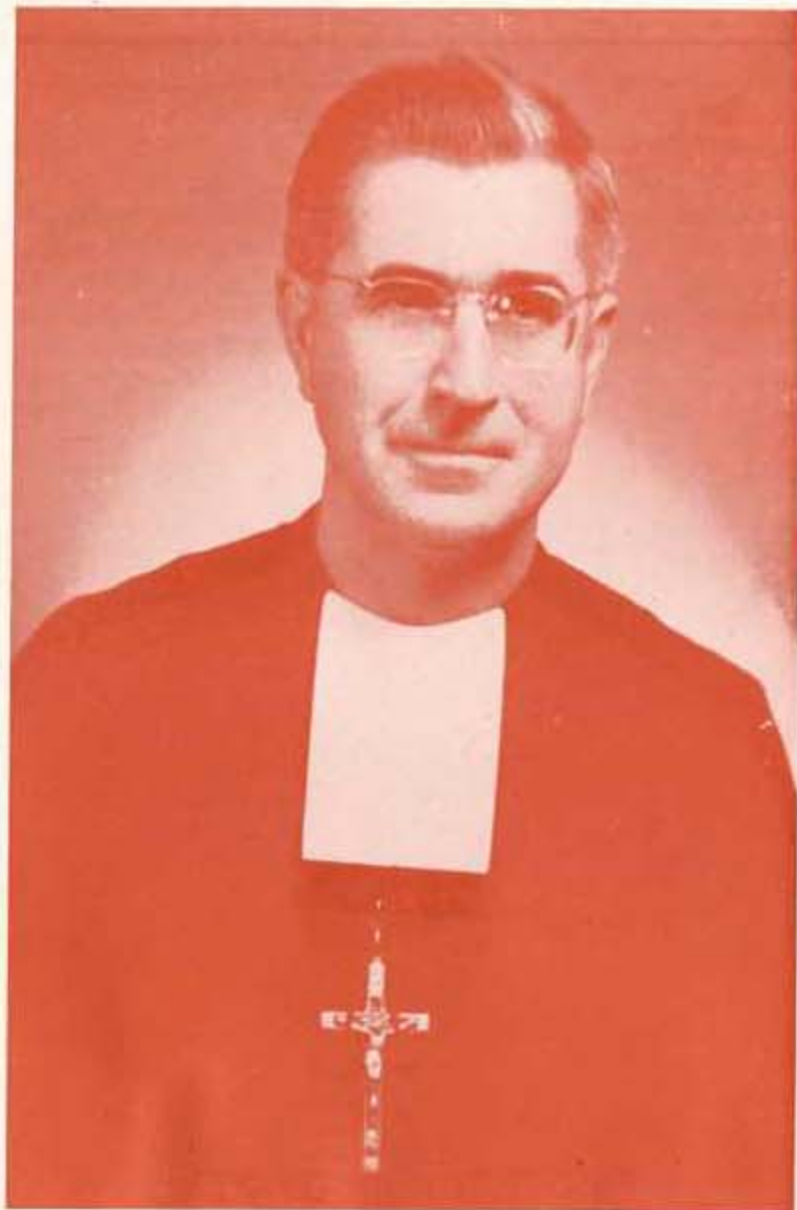

Following his election as Seventh Superior-General of the order, he went to present himself to Pope Pius XII and on October 24, 1946 he received a private audience. At his request, the Holy Father gave him a concise and meaningful message for all the pupils of the Marist Brothers. This message, which all the pupils of the Brothers the world over will treasure in their hearts forever, will serve as an indelible mark of their excellent training and unflinching faith. It reads: "Be loyal to the Church! Be pure! Be courageous!"

VERY REVEREND BROTHER LEONIDAS

Superior General of the Marist Brothers

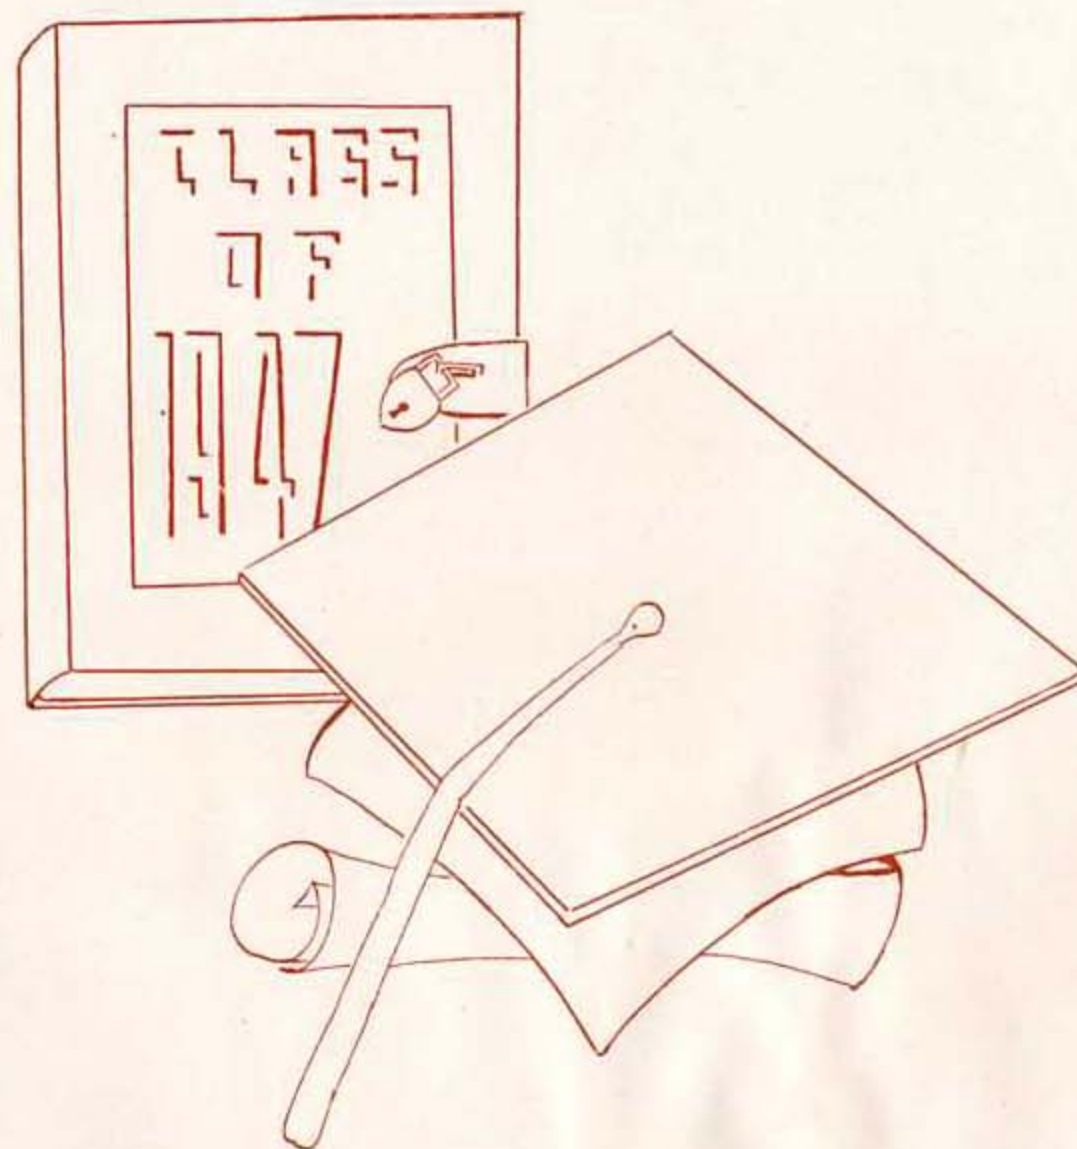

IN APPRECIATION

Dear Bro. Henry,

The time has come for us to bid farewell. We part in many directions and for diverse callings, but all of us leave with hearts filled with unbounded gratitude for your love and devotion to us, the graduating class of '47. You have made our stay at St. Joseph's an unforgettable one. The vicissitudes, favorable or unfortunate, which life holds in store for us will never erase the pleasant memories of the time we have spent here. We owe you a debt which we are unable to repay. We sincerely hope that some day we shall all be together once more in our real home in heaven.

SALUTATORY

To us, the graduates of 1947, this ceremony means much more than the mere conferring and reception of our first academic degree. For some it means that we have taken another step in the long educational journey that leads to one of the noble professions of law, medicine, or science. For others it marks the attainment of a goal, the reaching of a summit after a long and arduous ascent. But for all, it means the acquiring here tonight of a new dignity and a new responsibility, the dignity of graduates, and the corresponding responsibility of leading where formerly we were content to follow.

A great deal of sentiment goes with our departure from school. We know that we must leave friends and teachers whom we love, and this sadness is augmented by the recollection of cheerful high-school days spent in these pleasant surroundings. However, this sadness is engulfed in a much greater feeling of pride at the thought of the faithful trust that is placed in us by our parents and teachers. Their devotedness and patient sacrifice have been unbounded, for they were nourished with the hope that this abnegation would result in the formation of men of character and moral worth.

Our gratitude is deep and sincere. "Water never runs uphill," they say; children never remember the favors done to them by their parents and masters. We are resolved that it shall not be thus with us. It is not in hollow words that we desire to express our thanks, but in living acts of gratitude. The seed has been planted, the sower may now take a well deserved rest and await the harvest, for the fruits of intellectual and moral principles depend upon the soil. We are that soil and it is our fixed determination to produce a wholesome and abundant harvest.

This is the sole desire of each one of us tonight, to make of our future a story of noble deeds and unselfish application to duty. In this story there shall be no underlining of the terms "success" and "failure," but only "right" and "duty." Our check-book is not to be the gauge of our worth, nor is our character to be measured in lines of newspaper print. That we attain the esteem of our fellows, that our school may point to us as models for others to follow, that Catholic Action be our guiding star, these are our ambition; these, our expression of gratitude.

SENIOR CLASS NOTES

BRO. STEPHEN

We have come to that final year, the Senior year, the year of all years, for which we have patiently worked and waited.

The Senior class started their fall term with twenty-one in number, the majority coming up from last year's Sophomore class to take a crack at a three year graduation. One failed to comply with the requirements, but was replaced by three who took their exams in the Armed Forces.

Our class projects were very numerous, the most activated ones being the Red Cross and Community Chest drives. In athletics, many of us participated in football, basketball, and baseball, with Felipe Luna, the captain of all three teams, acting as our outstanding representative.

Among other good qualities, the generosity of the Senior class was especially shown by their large contributions to the Propagation of the Faith. They led the other classes of the school by a large amount, and the sum each has given set an example for the entire school.

The officers elected to carry on the work and to lead the class on to a successful year were:

EDWARD J. TALAMAS	President
ELOY RAMON LOZANO	Vice-President
FELIPE J. LUNA	Secretary
JUSTO P. LEYENDECKER	Treasurer

As we, the graduating class, say farewell to our cherished Alma Mater, we wish to express our sincerest thanks and gratitude to Bro. Stephen, our home-room teacher, Bro. Henry, our dear superintendent and all the members of the faculty, for without their help and patience we would not have succeeded.

VALEDICTORY

Today we graduate; tomorrow we start out on the difficult and mysterious road of life. We do not begin this journey empty-handed, however, for with us we take a priceless gift which our dear instructors have bequeathed us. This rich inheritance is a true moral sense of responsibility.

We have labored diligently to learn well the important lessons of loyalty, dependability and leadership. All of us have attempted to set an example and to establish a standard of excellence which will do honor to our beloved Alma Mater, and which our fellow students will be proud to emulate. We have met the requirements of scholarship; we recognize and accept the responsibilities of Catholic manhood.

What awaits us outside of these endearing walls? A world of hatred and antipathy rests, vulture-like, ready to engulf us. We must face the dreaded aftermath of World War II.

Are we to have more havoc and pandemonium? This is the question that haunts us as we peer fearfully into the future.

It is upon us and all serious-minded graduates like us throughout the whole world that the answer depends. Ours is a task of reconstruction. After the cruel might of dictators dragged the nations of the world to ruin and flouted the natural and Christian laws of morality and charity, we must set about the arduous task of regenerating and revitalizing these same forces that make a wholesome society.

We must be prepared to stand fast and firm against the evils which have laid out their vengeance upon the world.

With the training we have received from the Marist Brothers, we will not waver, and victory shall be ours.

But as we stand ready at the threshold of this new life and its struggle, it is with gratitude and affection that we remember an understanding and devoted faculty, who have been ever willing to help and befriend us in the trials and difficulties that have beset our way.

As the time draws near for us to bid adieu, we know that the joyous days spent together at St. Joseph's will live in our memory forever.

JUNIOR NOTES

BRO. JAMES

In the field of sports we contributed men for the varsity football and basketball teams. Many Juniors, likewise, went out for track and baseball. In this latter, the combination Luna-Dutson struck out many a player.

At the close of this year, we wish to thank Bro. James for his patient understanding of our weaknesses and for his efforts to guide our faltering steps in the path of virtue.

When we came back to St. Joseph's on September 5, we found that some of our former classmates had been promoted to the Senior class. Holding elections early in the term, we chose the following officers:

President	Simon Luna
Vice-President	Albert Dutson
Secretary	Jaime Padilla
Treasurer	Jaime Martinez

Throughout the year, we endeavored to add our mite to the worthy cause of the Propagation of the Faith. We offered an average of five dollars thus reaching the sum of \$90.00.

BRO. WILLIAM

Now that we are halfway through the high school journey, we look back nine months to the day we started the new school year. The teachers were the same as we had last year, but there were some new classmates, and our ambition was to do our best during the whole year.

One of the first activities in which we took part was the election of class officers. They came out as follows:

President	_____	Hector H. Garcia
Vice-President	_____	Alberto Salinas
Treasurer	_____	Roberto Chapa
Secretary	_____	Francisco S. Serrano

The following boys made up our class contribution to the football and basketball teams: Alberto Salinas, Hector Garcia, Mario Salazar, Roberto Amparan, Oscar Valenzuela, Xavier A. Guerra, Martin Cantu, Mario Alfaro, and Jose Portugal.

We gave with willing generosity to the Propagation of the Faith, and by the end of the year we had gathered over \$200, which was one of the highest amounts gathered in the classes.

The year was one of hard work but we have seen that our efforts were not made in vain, and we know that in the future, these fruits will ripen into true Catholic life and spirit.

We give our most sincere thanks to our teachers, especially to Bro. William our room teacher, who so wisely led us and advised us during the year.

FRESHMAN NOTES

BRO. JOSEPH

Vacations are over and a new and a hoped to be successful school year begins. From the first day on we clearly find out that life as Freshmen is very different from that of an eighth-grader, but still we are happy and proud to have passed to the first step in high school.

As school days go by and we begin to get acquainted with our several new teachers, changes happen suddenly in our class work and activities are had that often become subjects of interest. Thus the election of class officers gave us Alberto Garcia as President, Anthony Peña as Vice-President, Edward Babun

as Secretary, Heberto Gonzalez as Assistant Secretary, Jesus Villarreal as Treasurer, and Joe Gallahan as Assistant Treasurer.

Our class placed two students in the school paper staff: Edward Babun and Anthony Peña; these boys had already contributed articles to "The Antler" while in the Grammar Grades and now again have been doing so and hope that some day, when Seniors maybe, they will become editors.

This year the Freshmen have given account of themselves contributing a regularly good amount for the Propagation of the Faith and making generous donations in favor of the Community Chest, the American Junior Red Cross, and the March of Dimes.

The class '50 is also rather athletically minded this Freshman year since it produced three outstanding lettermen in football: Peter Luna, Jesus Villarreal, and Manuel Rodriguez. Also our class is the stronghold from which five boys, P. Luna, M. Rodriguez, R. Guajardo, E. L. Muñoz, and F. Garcia entered into the basketball "B" squad of St. Joseph's. Three of our classmates were chosen captains for the teams organized in order to prepare football players for the coming season; they were: Edward Wright of the "Roughnecks," Manuel Amaya of the "Mustangs," and Felix Garcia of the "Eagles."

Finally our class is credited for having attained the highest averages in school work, this honor having been made possible by Francisco del Valle, who reached the ninety-eight mark, Alberto Garcia following him very closely most of the time.

The harvest is great but the laborers are few. Our missionaries never stagger nor hesitate in the accomplishment of their missions. Stupendous are the ordeals which they undergo. Privations and discomforts are a daily routine for them. Uncomplaining and resigned to the will of God, they go about their obligations. It is evident that there is no greater privilege here on earth than to work for God as a missionary. However, since not all of us are destined to become missionaries, we can gain merit by aiding them financially. Hence this opportunity of helping to propagate the Faith is a door leading to a vault of graces and merits. It is to this worthy cause that many of the students generously contribute. The above mentioned are the leading donors of this year.

EIGHTH GRADE NOTES

BRO. ALFRED

The first round is over and the judges give us the nod.

We well realize that this fight was just a preliminary, for our education is far from being complete. We, the Eighth Graders of 1947, regard our long years of grammar school life as a "warm-up" for the next event on our schedule—High School.

When we look back on the past eight years, the general feeling is one of happiness and enjoyment, a sense of having accomplished something. And yet, we cannot but look with apprehension to our coming encounter with High

School, because we are fully aware that what we have done until now is very little. And the field ahead looms so large!

Flicking over the leaves of our memories, the outstanding events of the year are recalled to us. We fondly smile when we remember how distant graduation day looked that first week of the school year, and we realize with a start how brief a year can be when seen in retrospect. We do not like to linger over our shortcomings, for they were numerous; but we recall with particular relish our Spanish and Art lessons, our book reports, and specially our participation in the different athletic activities. Do you realize that we placed seven classmates in the basketball team that captured the Grammar School City Championship?

And now, as we bid farewell, we are comforted by the thought that many of us will be together again for four more years under the guidance of the Marist Brothers, and that their efforts to make of us good Christians and solid citizens will not be in vain.

BOARDERS' NOTES

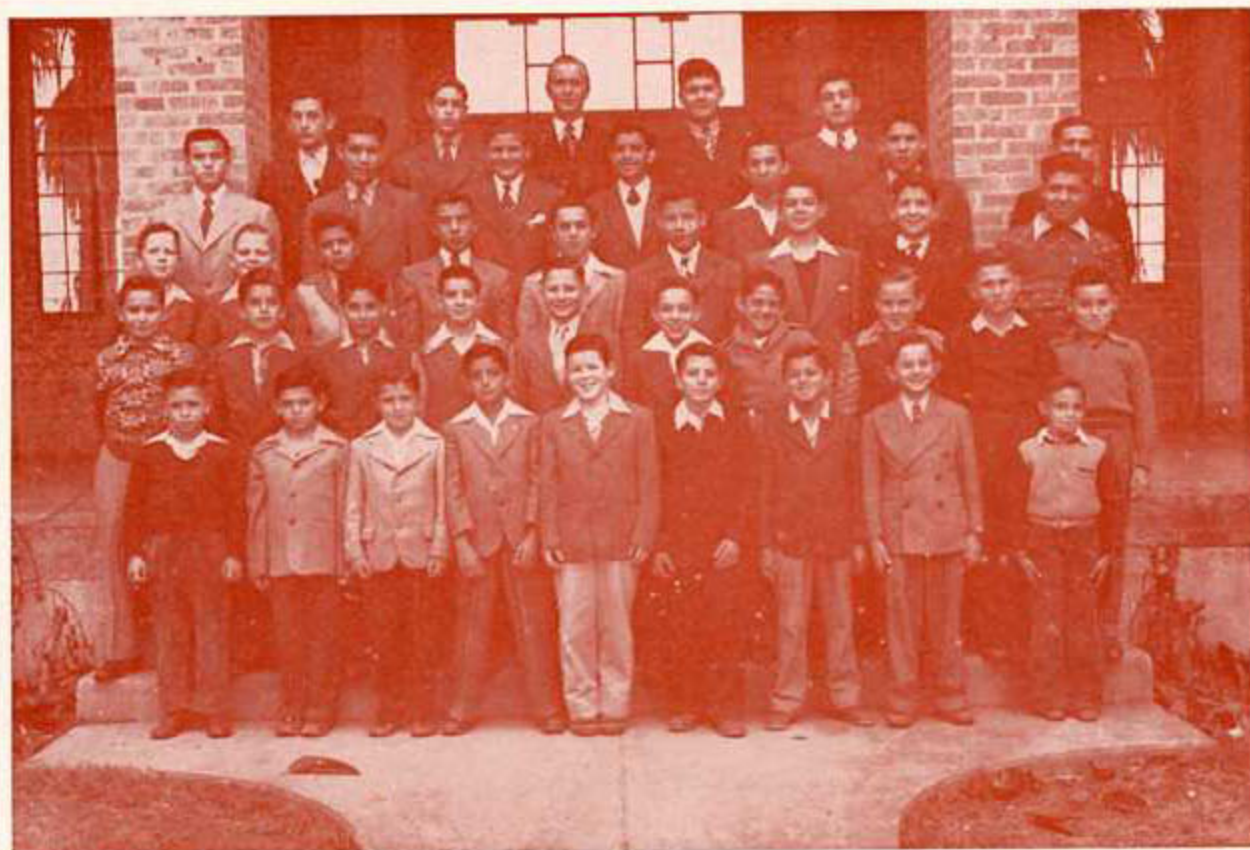

September found the usual hustle and bustle in the dormitory of old St. Joe's, but never before had the outbursts been so loud nor so prolonged, for the 1946 school year brought an all-time high of fifty boarders. The suit-cases piled in ever-mounting stacks and oldtimers passed the time frightening new-comers with weird tales of what they were to expect in the menu, the conduct of their companions, and the punishments of their teachers. A few days, however, sufficed to dispell all fears and cement new and old friendships, so that after a very short while "them boarders" were just a big happy family.

Many of the boarders distinguished themselves in different school activities. Vergil Ploch had the honor of leading the Junior Class as each six weeks exam period placed him first in the class; Mario Salazar lettered in both football and basketball; Alberto Salinas, an old-timer of seven years' standing, was an invaluable asset on the basketball squad where he played an inspiring game as guard; Manuel Garza was first throughout the year in the third grade; and, of course, all the boarders shone brightly when the occasional dances offered them an opportunity to exhibit their skill at jitter-bug.

Now that the year draws to a close and the suitcases are brought out and dusted for the homeward journey, we bid farewell to our Laredo friends and thank them for an enjoyable year. To the Seniors we offer congratulations and fondest hopes for success.

SCIENCE NOTES

Science is playing a very important role in the ever-advancing world of today. Every new discovery is a stepping stone towards the better world of tomorrow.

The St. Joseph's Academy faculty, being well aware of the importance the field of science will play in the lives of the present and coming students, places a strong emphasis on it so the pupils will become interested in this captivating subject.

Up-to-date instruments and equipment for physics, chemistry and general science are purchased every year so the students may handle and study them and thus become acquainted with the fundamentals of science.

A project every six weeks brings out the ingenuity and manual ability of the students. Water wheels, electric motors, steam engines, water pumps, kaleidoscopes, jet racers, and rocket planes are built by the students as part of their manual training.

Countless branches into which any aspiring student may enter can be found in the field of science. St. Joseph's Academy is doing its part to point the way for its students.

LIBRARY NOTES

In the Library are kept the leading products of modern culture and literature, and the students are encouraged to spend a short while each day there. The room is well supplied with the best papers and periodicals; encyclopedias and all forms of books of knowledge and instruction are found in abundance. A wide range of fiction and non-fiction books are lent out continually to the students.

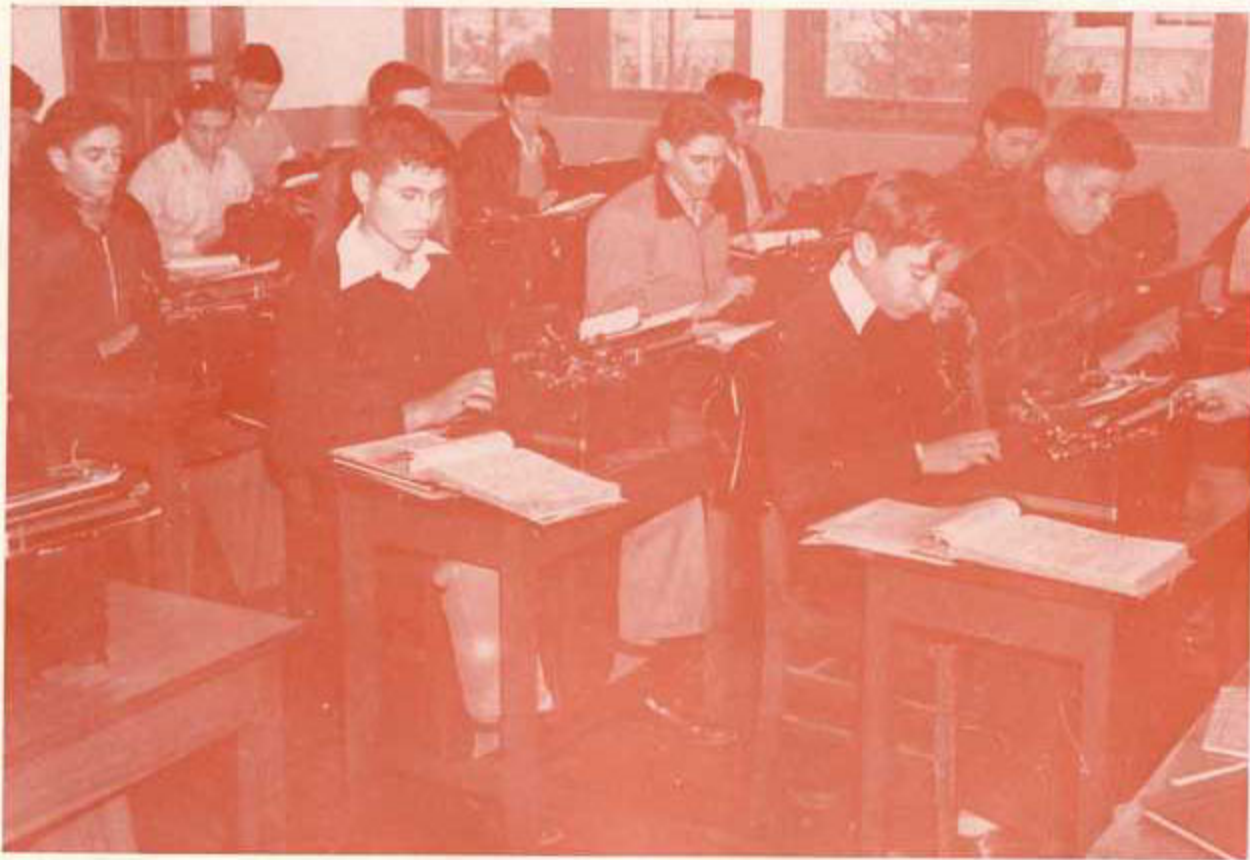

Among the students who have found the Library a place for recreative reading, and who have made extensive use of many of its articles are: Alfredo Renteria, Vergil Ploch, Luis Avila, and Edward Babun.

The Library is supervised by Brother James, a trained Librarian, and it is through his auspices that its contents are constantly and considerably being increased through the years.

BASKETBALL NOTES

The 1947 basketball season came to an abrupt end while the team was still practising for the Catholic Tournament in St. Mary's University as word was received that the Tournament had been cancelled. This was much to the dissatisfaction of the entire squad who had hopes of showing up favorably in the Tournament.

During the regular season the Antlers won eight games and dropped eleven for a .421 average. They garnered a total of 577 points and allowed their opponents 582 points.

The absence of height was a disadvantage to the Antlers, but in fighting spirit no team could rival them. It was their inability to match their opponents' height that proved to be their downfall in most of the games when the score was very close in the last minutes of play.

The following is the list of the games played by the Antlers during the 1947 season.

FAITH IN THE FUTURE

● A great challenge faces you today, but it is a challenge which should inspire you with a faith and confidence in democratic principles, rather than to make you afraid of what tomorrow holds in store. It is your responsibility to preserve the ideals and principles for which our forefathers fought and died.
